

Mysterious traces of Sherlock Holmes at the new SWISSPEAK resorts in Meiringen

It is rumored there is an element of Sherlock Holmes in the construction of the new SWISSPEAK resorts in Meiringen. Just across the road from the [Sherlock Holmes Museum](#), at the Casino square in the middle of Meiringen, there is a new holiday development. On 11th of December 2019, a new apartment resort will be opened for the first time. There are rumors that Sherlock Holmes will be mingling in the lobby and also his presence felt within the new, modern 2-4 room-apartments. How exactly has been kept strictly confidential! But it is certain you will have a wonderful insight into Sherlock Holmes' past as well as a view of the impressive [Reichenbach Falls](#) from many of these apartments. The apartments are all furnished with a fully equipped kitchen, cosy living and dining rooms and 1-3 bedrooms. An ideal location for treating yourself to a homemade Sherlock Holmes fondue in the evening, whilst enjoying the sunset over the mountains.

If you thought that the essence of Sherlock Holmes can only be felt at the Reichenbach Falls and at [Conan Doyle Place](#) in the summer, you are quite mistaken.

In Winter, after a wonderful day skiing or snowboarding on the [Hasliberg mountain](#), guests can relax and enjoy a warm sauna or drink in the bar. Not forgetting the kids can let off steam in the playroom! Even in Winter – around the clock – those guests looking for adventure can help solve the mysterious disappearance of Professor Braun. To take part in Meiringen's new thriller, all you need is an internet-enabled smartphone and a desire to solve the puzzle surrounding Professor Braun. An unknown source has also reported that the Sherlock Holmes Museum, just a stone's throw from the resort, welcomes guests even in winter – careful though, entry is only possible with a warm winter jacket!

If you would like to find out more about the new Sherlock Holmes activities in Meiringen, why not take a look from mid December 2019 and book a relaxing break at one of the cosy new apartments.
